

WHERE ARE THEY NOW?

Former 1999-born Surrey United BCSPL player Brittany Costa has returned to Surrey United SC as a Club Coach and BCSPL Assistant Coach this season. Brittany is currently attending the University of the Fraser Valley (UFV) studying kinesiology. She is working towards becoming a physio therapist in the future. Brit also plays for UFV's women's soccer team.

How did your time at Surrey United contribute to your successes so far? Surrey United was a huge part of the success that I have had as a soccer player. Thanks to all the coaching and experiences I had through Surrey United, I was able to go away to Alberta for the first two years of post-secondary where I won the rookie of the year award at MacEwan University.

What are your favourite memories of Surrey United? My favorite memories at Surrey United were attending Youth Club Nationals at U-14 in Lethbridge with my BCSPL team as well as U-18 nationals in Prince Edward Island with the older team.

What do you miss about Surrey United? I definitely miss having home games down on CAP 4 and 5 and the environment of the whole club being there to support you. There's nothing like a Surrey United BCSPL home game!

As a new BCSPL Assistant Coach and SUSC Staff Coach, how do you find your experience as a coach in the Club and how does it differ from your time as a player? I am loving my experience as a staff coach here at Surrey United, the environment of all the staff is very positive and supportive of one another. Being a coach differs from when I was a player at the club in the sense that I have been in the position that many of the players are currently experiencing which will allow me to help them get through it on a personal level as well as help them to have the best possible experience here at Surrey United.
